

Cold Seal Single Dose Cards

Solve for Heat-Sensitive and Reclaimable Medications

No heat required. Omnicell’s cold seal blister cards are flexible, efficient, and reliable. They are ideal for heat-sensitive medications and work well for the repackaging of reclaimable medications.

Benefits

- Available in 14-, 30-, 31-, 62- and 90-day dose formats to accommodate diverse customer and operational needs
- No heat required to seal cards, allowing your pharmacy to fill stat orders immediately by eliminating machine heat-up time and maintaining the integrity of heat-sensitive medications
- Cold Seal Cards are also available in 1-Piece formats, for additional operational efficiency

62-day Dose (Item# 300-64)
(62 blisters - Item #200-23)

90-day Dose (Item# 300-65)
(90 blisters - Item #200-24)

31-day Dose (Item# 300-58)
(31 large blisters - Item #200-34)

Cold Seal Assembly Instructions

Insert Card / Blister into Template

Peel the wax sheet from the back of the card. Place the card on the cork, lining up the corresponding holes. Place the blister sheet into the holes.

Fill

Fill each blister with the required medication.

Peel and Seal

Peel the wax liner from the back of the card. Fold the card to cover the filled blister. Using a roller, apply even pressure to the card in vertical and horizontal directions to ensure secure seal.

Finished

It's that easy!

Card Format Options

Dose Format	2-Piece Card			1-Piece
	Card P/N	Clear Blister P/N	Amber Blister P/N	1-Piece P/N
